

Stormwater Queensland

Update to Rules of Association 2021

The Stormwater Queensland committee is proposing an update to the Rules of Association.

The original Rules of Association from when the association was formed in 1996 have had a few minor updates that were approved at AGMs in 2001 and 2013. The rules were revised in 2019.

The proposed Rules of Association incorporate new rules to suit the way the committee operates.

The adoption of the proposed Rules of Association will be included in a motion at the 2021 AGM.

The changes include:

- Rule 12. Addition of Clauses 7 and 8.
- Rule 27 Clause 1. Addition of new sub-clauses i, j and k, and renumbering of the old sub-clauses from i to m, to l to p.

The additions are highlighted in blue in the draft Rules.
